Re: White Rock Lake (WRL) Dam Maintenance Project – (Council District 9)

White Rock Lake Patrons,

The City of Dallas Water Utilities is pleased to announce the completion of the WRL Dam Maintenance Project, ahead of schedule. The WRL Dam Maintenance Project is part of on-going maintenance efforts and included dam and spillway concrete repairs, slope stabilization improvements, and vegetation management within the footprint of the dam. The construction access road to work on the spillway will remain as a betterment to the park.

The contractor is currently in the final stages of removing all heavy construction equipment and completing field work that consists of removing the temporary construction fencing and trail closure signs. On Wednesday, December 22, 2021 the public will have access to the old fish hatchery and reopened trails on the section of White Rock Lake Trail on the dam.

We appreciate your understanding and cooperation during the project construction activities. Please retain this letter for your reference. If you have any questions please contact Estela Ornelas, Sr. Public Affairs Officer at 214-671-9554 or estela.ornelas@dallascityhall.com. For additional information on the WRL Dam Maintenance Project please visit the White Rock Lake webpage on www.dallasparks.org.
