

June 1, 2022

Dear Valued Guests,

Thank you for your continued support of Cedar Crest Golf Course during these difficult times! As a staff, we are disappointed with our current conditions, but are motivated to restore Cedar Crest golf course as one of the premier facilities in Dallas. While other courses in the area are dealing with similar issues, the City of Dallas will not be satisfied until the course is fully restored.

Since the closure, staff has been working diligently to grow in the greens and provide a quality putting surface and will continue to do so. Staff has coordinated and developed these plans with industry experts to ensure our success. These plans are to increase fertility, aerification frequency, and top dressing to promote a healthy soil, optimal for growing grass.

Obviously, we are striving to complete this work as soon as possible, but unfortunately, these efforts will take some time. We hope to see drastic improvements within the next 2 weeks and a quality putting surface within the next 4 weeks.

Where we are versus where we will be shortly

Staff will continue to monitor the progress of their efforts, while looking for ways to further improve upon the conditions of the course. Should you have any inquiries, please contact us at (214) 671-2785.

Thank you,

John Lawrence,  
Assistant Director

Kevin Redburn,  
Superintendent, Golf

Tim Muench,  
Greens Superintendent
